## The UNITRON Catalog of ASTRONOMICAL TELESCOPES

### including the OBSERVERS GUIDE

with glossary of telescope and observing terms

Getting Acquainted with the CONSTELLATIONS

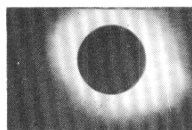

A FASCINATING new book... **UNITRON**... **ASTRONOMICAL TELESCOPES**... **OBSERVER'S GUIDE**...

UNITRON

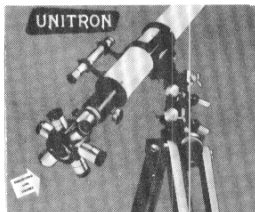

1.6-inch ALTAZIMUTH REFRACTOR

\$75.

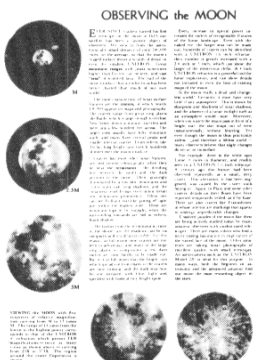

OBSERVING the SUN

The SUN... **UNITRON**... **ASTRONOMICAL TELESCOPES**... **OBSERVER'S GUIDE**...

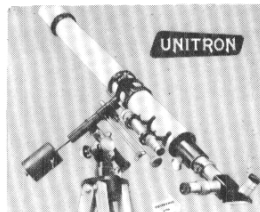

2.4-inch ALTAZIMUTH REFRACTOR

\$125.

OBSERVING the MOON

The MOON... **UNITRON**... **ASTRONOMICAL TELESCOPES**... **OBSERVER'S GUIDE**...

UNITRON

2.4-inch EQUATORIAL REFRACTOR

\$225.

OBSERVING the PLANETS

The PLANETS... **UNITRON**... **ASTRONOMICAL TELESCOPES**... **OBSERVER'S GUIDE**...

3-inch ALTAZIMUTH REFRACTOR

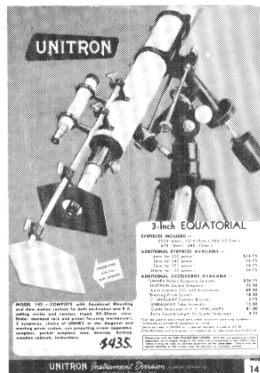

\$265.

New frontiers left for man to conquer are rare. Perhaps the greatest, a truly fascinating and colossal one, is the exploration of the heavens.

Successful man-made satellites already point the trend to eventual space and interplanetary travel. Trips to the moon will undoubtedly take place within your lifetime. You, like thousands of others, will wish to participate in man's conquest of outer space.

It is not enough to merely read about the universe; nothing can substitute for the thrill of actually seeing these wonders for yourself through a UNITRON telescope. The sample pages shown here in miniature merely hint at the wealth of material

found in UNITRON'S 54 page Catalog and Observer's Guide. Helpful information on observing the heavens, full-page illustrated articles on astronomy, telescopes and their mountings, accessories, astrophotography, etc. are included. Those considering the purchase of a telescope will find UNITRON Refractors and Accessories especially interesting. A careful comparison of features, quality and performance of different instruments is important for the prospective buyer to insure that his telescope will be worthy of the time he will devote to observing. It's easy to own a UNITRON telescope. A down payment of only 10% puts you at the controls.

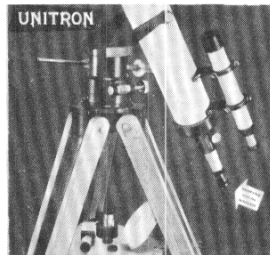

UNITRON

3-inch EQUATORIAL REFRACTOR

\$435.

WONDERS of the DEEP SKY

The DEEP SKY... **UNITRON**... **ASTRONOMICAL TELESCOPES**... **OBSERVER'S GUIDE**...

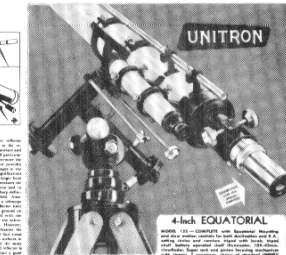

4-inch ALTAZIMUTH REFRACTOR

\$465.

To help you choose a telescope...

How to choose a telescope... **UNITRON**... **ASTRONOMICAL TELESCOPES**... **OBSERVER'S GUIDE**...

UNITRON

4-inch EQUATORIAL REFRACTOR

\$785.

\$890.

HINTS for OBSERVERS

HINTS for OBSERVERS... **UNITRON**... **ASTRONOMICAL TELESCOPES**... **OBSERVER'S GUIDE**...

UNITRON

4" PHOTOGRAPHIC EQUATORIAL

With Clock Drive, Auto-Coma

\$1175.
